**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Ina et al (US 7,520,375 B2).

Regarding Claims 1-9, Ina discloses Applicants' method including a bill validator that senses counterfeit banknotes, stores an identity of a payer, as mentioned at col. 2, line 58-col. 3, line 12. Ina further discloses generating checking data by the sensor device (101), comparing the checking data with the stored data concerning counterfeit banknotes, and identifying the respective counterfeit banknotes and linking the identity of the payer with the specific counterfeit banknotes identified.
